## THANK YOU TO...

- **OUR “DEALS FOR DONATIONS” PARTNERS** – Your generosity has surpassed expectation. When this initiative first began to take shape, we didn’t know how you would respond. Your willingness to help us make suicide a talkable topic while contributing a portion of your sales to fund our LiFE-Saving mission is a true example of HOPE IN ACTION.
- **EVERYONE WHO SUPPORTS OUR “DEALS FOR DONATIONS” PARTNERS** – It is through your patronage that LiFE OF HOPE will receive donations from these participating businesses. It was our HOPE that this initiative would bring our community closer together, with businesses and people like you who value LiFE as much as we do. You are part of our effort to recognize the businesses who continue to support our mission and with your help, we HOPE we are another step closer to achieving our goal.
- **OUR COMMUNITY ADVOCATES** – As you share the LiFE OF HOPE mission with others, our impact continues to expand with perspectives being changed, misconceptions being replaced by truth, and a growing list of lives being saved. Keep promoting a message of HOPE and healing, where purpose replaces pain. You are the power that fuels our mission!
- **THOSE WE SERVE** – Our journeys have crossed so that, together, we can expand our understanding, share in the pain, celebrate the joys, and continue our stories knowing we’ve survived and learned to thrive. Your determination to be part of the solution takes the term, “courage” to a whole new level. For some, you join in the mission for the sake of someone you know. For others, you are preparing for those you’ve yet to meet. And still others come to fight the battle of their lives, beyond the pain that brought you into our lives. The topic of suicide is difficult to say the least, but you’re demonstrating the joy within the journey. You inspire us every day and represent the best that LiFE OF HOPE has to offer.
